Claim Rejections - 35 USC § 112

Claims 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 18, the recitation "single interrupted member" is ambiguous.

Claim Rejections - 35 USC § 102

Claims 18-20 and 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by PCT 02/072992.

See the vertical track assembly in Fig. 5. See also "header" 18, which is indirectly connected to the web portion of track 4. The vertical tracks provide a stop by virtue of containing the rollers.

Claim Rejections - 35 USC § 103

Claims 23,25,26,30-32 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over PCT in view of Hoofaard et al '814.

Providing the vertical, horizontal and transitional tracks as separate pieces that are joined by telescoping connections is known as illustrated by '814 and it would have been obvious to modify PCT to have such a structure so as to render the track system more easily assembled.

Claims 1-3,9-12 and 14-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over PCT in view of Mullet '872.

PCT discloses the tracks as discussed above. Mullet discloses a frame 11, which includes header 13, which is made of metal, which is attached to a building and

facilitates attachment of the door supporting structure thereto. In view of this teaching, it would have been obvious to modify PCT to have such a header to achieve these advantages. Regarding claim 12, the seal is not actually recited. The counterbalance 15 of Mullet is considered to be an operator.

Allowable Subject Matter

Claims 13 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
